TIFOREST RESERVE

Bill Appropriating \$10,000,000 BILL FURTHER DISCUSSED

Mr. Mitchell. of Oregon, Continued His Speech in Opposition to Panama Route-House Lacked Quorum to Vote on Anarchy Bill.

(Bv Associated Press.)
WASKINGTO: June 7.—After transacting some business and discussing for a time the bill to relieve shippers from the London dock charges, the Senate resumed consideration to-day of the Isthmian Caral project.

mian Canal project. Mr. Mitchell, of Oregon, continued his speech begun on Thursday, in opposition to the Panama route. After consider-ing the engineering difficulties of the rouse, which he regarded as very serious, he entered upon a denunciation of the methods of the Fanama Canal Company, which, he declared, were the most corrupt in the history of the world. He warned Congress that no better way could be found to defeat the construction of any canal than to adopt the Spooner amendment, as the United States could have no connection with the Panama-route without becoming involved in the intricacles of the French courts, from which it would find it impossible to the tricate itself. He declared that any con-

nection this country might have with the Fanama proposition would result in the defilement of the government. NATIONAL FOREST RESERVE. Mr. Depew, of New York, addressed the Senate in advocacy of the bill ap-propriating \$10,000,000 for the purchase propriating \$10,000,000 for the purchase of 2,000,000 acres of land for national forest reserve in Virginia, North Carolina, South Carolina, Georgia, Alabama, and Tennessee. It is stated by the committee reporting the measure that "It may fairly be urged that the establishing of this forest reserve in the region of this forest reserve in the region of this Southern Annalachian moungion of the Southern Appalachian moun gion of the Southern Appalachian mountains is a matter of great national importance, and that owing to the peculiar conditions existing in this region, the establishment of this reserve need not necessarily be accepted as a precedent for the establishment of similar reserves

or the establishment of similar reserves elsewhere in the east."

Mr. Depew said the project was favored by President Roosevelt and by the Secretary of Agriculture, and Federal action was justified fully by public necessity. He said the most favorable results might be expected from the establishment of the reserve. He said results might be exepested from the establishment of the reserve. He said that within ten years the great hardwood frests in the proposed reserve would be destroyed entirely. Such results would be destroyed entirely. would be destroyed entirely. Such result would be disastrous to the States affected and to the entire country.

At the conclusion of Mr. Depew's remarks, Mr. Hale said that the Senate could not fail to be impressed by the great importance of the subject. He had not been aware of the extent of the land to been aware of the extent of the land to be surchased but he thought

land to be purchased, but he thought some action ought to be taken upon the matter at this session. In the House.

WASHINGTON. June 7.—The House spent the entire day voting upon amendments to the anti-anarchy bill, but all failed except one proposed by Mr. McCall, of Massachusetts, to strike from the anarchist section the word "assault" when it is coupled with "killing" in the inhibition against conspiring for the killing of the Chief Magistrate of a foreign country. After the bill had reached the last parliamentary stage before passage Mr. Dearmond, of Missouri, moved to recommit. The quorum failed at this In the House.
